Sir,

A.R.P. NIGHT PRACTICE DURING NOVEMBER 1943.

In continuation of my letter No.A.R.P.70/43-44 dated 11-11-43, I have the honour to state that on communicating the proposed "Black-out" for half-an-hour in the City, the General Superintendent, Cauvery Power Scheme, intimates to me that under the existing distributive system of power supply, it is not possible to have a "Black-out" exclusively for the City, as some portions of the City bordering on the Civil and Military Station and power to which are controlled by "B" & "C" Stations will not be "Blacked-out", and hence suggests the partial "Black-out" in the City on the night of 20-11-1943. I have agreed to this suggestion.

As per Notification No.1409/W dated 30-12-1941, clause (2), whenever a practice "Black-out" is arranged by the A.R.P. Controller after previous notice to the public, the provisions (i), (ii) & (iii) of the said Notification will remain

remain in force and as such the issue of the Notification under the Obscuration of lights order requested in my letter No. A.R.P.70/43-44 dated 11-11-1943, does not arise and request therefore the non-issue of any notifications.

A copy of the modified Press Communique for the information of the public is herein enclosed for the information of Government.
